

The Terra Deck by Alfresco is the future of sustainable timber decking. They are a combination of ground breaking sustainable design & state of the art production.

Produced in India by Himalaya Global in the advanced 80,000 Sq ft production plant ,Terra Deck panels are composite decking made of 60% natural timber and 40% recycled polymer. The panel's construction is a wood plastic composite (WPC) core encased by a hybrid high performance polymer capping.

The Terra Deck panels are designed to to look like natural timber but need zero maintenance.

Flexibility in design

Terra Deck is produced in unique Twin usable surface, One side is a authentic timber texture and another is a suave grooves; both beautiful and usable as per design preference.

Spoilt for choice

Terra Deck is available in 8 fabulous colors
